A SHARING BY NATHAN

13 years ago, I was introduced to the LAFD CERT Training and 'Got Inspired' to start My Personal & Business Process to Be MorePREpared.

My Mission: To Respond To and Provide Relief Following a Whole Community Emergency & Disaster Activation - In the First 72 Hours with a PRE-Positioned VEPOD (Volunteer Emergency PRE-paredness On Demand) Point Of Distribution with PRE-paid Needed Supplies PRE-pared For Immediate Distribution.

A Public Private-Sector Partnership

The Theory: Developing a Mutually-Beneficial Working Relationship - MOU or MOA - That Maximizes the Combined Coordination of Available Resources and How Best for Logistics Productivity.

Our Reality - Except for a Notice of Activation: Level ONE, nothing else included in the MOA was followed or worked out per the Plan Of Action To Follow a Disaster Activation.

A Taste Of PREparedness

This is what binds TEAM BMP-2-COPE-4-ESP Members: To BE READY to Respond to the Current Disaster Activation.

Website: www.ATasteOfPREparedness.com The WHITE CROSS OF TRAINED VOLUNTEERS

The White Cross Of Trained Volunteers

The White Cross Of Trained Volunteers is a 'Grass Roots' PRE-Paredness Movement - Including: HAM Radio Operators * Scouters * VETERANS * Community Volunteers.

The Volunteer Emergency Command (VEC) provides Organization and Leadership to 'The White Cross Of Trained Volunteers' with A TASTE OF PRE-paredness .

Volunteer Emergency Command (VEC)

13 years ago, First Responders were saying, “We are not coming, you need to Be Prepared for 3-to-7 days. We said, “If you’re not coming, WE NEED to know what to do and PRE-prepare for IT” ... In advance of when IT is needed.

- * Volunteer Emergency Command Center (VECC)
- * Volunteer Emergency Coordination Center (VECoC)
- * Volunteer Emergency PREparednessOnDemand (VEPOD) Points Of Distribution (POD) Locations
- * The BMP-2-COPE-4-ESP Disaster Donations Management System (DDMS) & Logistics Services

PRIMARY LESSONS LEARNED

* During the Pandemic: COVID 19 Activation Level ONE

(1) We need to Be Prepared for Multiple Disaster Activations and Be MorePREpared for Compounding Disaster Activations.

(2) “To Win IS To Lose”

(3) The Established Donations Distribution Network needs to Be MorePREpared for Pandemic DISASTER Activations.

(4) “The Policy of Rigid Flexibility” provides the ability to make ‘The Best Decisions’ for Disaster Response Solutions that maximize the available and combined resources of time, energy and dollars.

(5) We KNOW we all NEED To Be MorePREpared -2- COPE -4- Emergency Survival PREparedness (ESP)
